

New Source Review newspaper advertisements for construction permit applications, April 5, 2018. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications will be or were published on one of the following dates: April 3, 2018, or April 5, 2018. Public notices are generally published every week. The previous publication of public notices was March 29, 2018.

PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction and/or modification of air contaminant sources as noted below. The proposed construction and/or modification is subject to part 1200-03-09-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mrs. Michelle W. Owenby, Director, Division of Air Pollution Control, William R. Snodgrass Tennessee Tower, 312 Rosa L. Parks Avenue, 15th Floor, Nashville, Tennessee 37243 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Any individuals with disabilities who wish to participate in these proceedings or to review these filings should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such initial contact may be in person, by writing, telephone, or other means, and should be made no less than ten (10) days prior to the hearing, or the date such party intends to review such filings, to allow time to provide such aid or service. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 2nd Floor, William R. Snodgrass Tennessee Tower, 312 Rosa L. Parks Avenue, Nashville, TN 37243, (866) 253-5827 (toll free) or (615) 532-0200. Hearing impaired callers may use the Tennessee Relay Service (1-800-848-0298).

The applicant is Town of Greeneville with a mailing address of 200 N. College Street, Greeneville, TN 37745. They seek to obtain an air contaminant permit (Division identification number: 30-0303-01/73948) for construction of an Air Curtain Destructor located at 1555 Old Stage Road, Greeneville, TN 37745. This proposed operation would consist of a 3-phase electrically powered fan with a refractory lined burn-container and associated equipment used to burn clean lumber, wood waste, and yard waste. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. E. King is the assigned Division person.

For the Greene County "Greeneville Sun"-- publish once on Thursday, April 5, 2018.

The applicant is Johns Manville, Inc. with a mailing address of 2235 Highway 411 North, Etowah, TN 37731. They seek to obtain an air contaminant permit (Division identification number: 54-0132-20/73832) for modification of a glass furnace production line located at the same address. The existing 3304 Glass Furnace Fiber Production Line includes material handling equipment (storage silos and hoppers, weigh bins, and unloading systems), the glass melter, and various glass dryers. Emissions are controlled by a wet scrubber, baghouses, and an electrostatic precipitator. The proposed modification will involve the replacement and addition of equipment to increase production line capacity. There would be physical construction. Regulated air contaminants emitted by this source will increase. Mr. John Trimmer is the assigned Division person.

For the McMinn County "Daily Post-Athenian" -- publish once on Thursday, April 5, 2018.

The applicant is Tennessee Valley Authority – Cumberland Fossil Plant with a mailing address of 815 Cumberland City Road (CUF 1A-CCT), Cumberland City, TN 37050. They seek to obtain an air contaminant permit (Division identification number: 81-0011-53/73843) for construction of a Coal Combustion Residuals Landfill at the same address. This proposed operation would consist of material handling and landfill operations for disposal of coal ash and other residual materials. Wet suppression, roller compaction, and other work practices would be used for control of fugitive dust. A water curtain and collar suction would be used to control particulate matter emissions during fly ash unloading operations. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. T. Blake is the assigned Division person.

For the Stewart County "Stewart-Houston Times" – publish once on Tuesday, April 3, 2018.
